

Youth Use of Opioids in Schuyler County

Brought to you by the
Schuyler County Coalition on Underage Drinking and Drugs (SCCUDD)

Students attending Watkins Glen, Odessa Montour, and Bradford schools were surveyed in 2013, 2015, and 2017 (Bradford was not involved in the 2015 survey). In 2013, 145 eighth graders, 141 tenth graders, and 114 twelfth graders took the survey. In 2015, 132 eighth graders, 100 tenth graders, and 63 twelfth graders took the survey. In 2017, 126 eighth graders, 107 tenth graders, and 79 twelfth graders took the survey. The national survey does not collect data on prescription (Rx) drug misuse for students in Grades 8 and 10.

		Schuyler County	Nationally
Percentage (%) of students in Grade 8 who used heroin within 30 days of survey	2013	0.7	0.3
	2015	0.8	0.1
	2017	3.7	0.2

		Schuyler County	Nationally
Percentage (%) of students in Grade 10 who used heroin within 30 days of survey	2013	1.4	0.3
	2015	0	0.2
	2017	1.6	0.1

		Schuyler County	Nationally
Percentage (%) of students in Grade 12 who used heroin within 30 days of survey	2013	0.9	0.3
	2015	0	0.3
	2017	1.2	0.3

All (100%) students in Grades 9 through 12 who have used opioids started before age 12. Almost all of them (89.7%) started before they turned 10.

Risk Factors for Opioid Use

Analysis from the 2017 Evalumetrics Youth Survey showed that:

- Students with **antisocial behaviors** are **16.29 times** more likely to report drug use. More than one in 20 (6.5%) Schuyler County students in grades 9-12 scored at risk for *antisocial behaviors*.
- Students with **favorable attitudes toward drugs** were **15.64 times** more likely to use drugs. In Schuyler County, 9.6% scored at risk.
- Students who reported that their **friends use drugs** were **11.46 times** more likely to use drugs. In Schuyler County, 9.2% scored at risk.
